

YOUR GAP YEAR WITH BASF

BASF SE, located in Ludwigshafen am Rhein, is the corporate headquarters of the BASF Group and part of the Rhine-Neckar Metropolitan Region. BASF stands for competence in chemistry since 1865 and is represented today in the world's major consumer markets, with a wide range of products. As the largest employer in the region, BASF SE offers multiple career opportunities for students, university graduates and professionals providing also training in over 30 professions. Leisure, sports, culture and a good infrastructure characterize the Rhine-Neckar Metropolitan Region, in which BASF is also involved with numerous activities.

At BASF, the chemistry is right. Because we are counting on innovative solutions, on sustainable actions, and on connected thinking. And on you. Become a part of our formula for success and develop the future with us - in a global team that embraces diversity and equal opportunities irrespective of gender, age, origin, sexual orientation, disability or belief.

The Intermediates Division develops, produces and markets a comprehensive range of intermediate products, such as amines, diols, polyalcohols, acids and specialties. The intermediate products are used, for example, as raw materials for fuels, pharmaceuticals, textiles, cleaning agents and pesticides. Our innovative products contribute to improving the properties of the end products and the efficiency of the manufacturing processes.

As part of the gap year program at the University of Mannheim, we are offering the following position to be filled at our location in [Ludwigshafen](#) by **autumn 2024**

Intern in Supply Chain

Your Tasks:

Become part of our Global Supply Chain Excellence unit in the field of intermediates and help us to actively shape the supply chain world and master current challenges. We are looking for you from September 2024 as part of the Gap Year Program of the University of Mannheim!

- Everything at a glance! You will be responsible for operational and conceptual tasks and work on them independently.
- Your knowledge is in demand! Through targeted analyses, you will optimize our complex supply chains and bring your insights to the global supply chain community.
- Right at the forefront! You will be involved in ongoing large-scale projects and participate in the digitization of our supply chain processes.
- Last but not least, you will gain a comprehensive insight into the working methods of the supply chain of a global active company.

Your Profile:

- Bachelor's degree with focus on Supply Chain
- First relevant practical experience as well as theoretical knowledge in Supply Chain
- Experienced handling of common IT applications such as MS Office
- Communication skills in German and English team player with a structured and innovative way of working

Benefits:

- From day one you will be part of the BASF family.
- You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment.
- Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours.
- In this way you will make numerous interesting experiences and get a deep insight into the world's leading chemical company. Information regarding internships: <http://on.basf.com/internship>
