

YOUR GAP YEAR WITH ROCHE

Roche Diagnostics is a division of Roche. We develop and integrate diagnostic solutions that address the challenges of today and anticipate the needs of tomorrow. In more than 100 countries, we offer the industry's most comprehensive in vitro diagnostics solutions, covering molecular diagnostics, clinical chemistry and immunoassays, tissue diagnostics, point of care testing, patient self-testing, next-generation sequencing, and laboratory automation and IT, and decision support solutions. An important part of our success in transforming patient's lives sits with our Global Operations function. Our **Diagnostic Direct Procurement (DOP)** department plays a central role in making sure we can achieve that. Therefore, we are responsible for strategic supplier management and strategic procurement activities for finished goods and raw materials. Our vision is to be procurement entrepreneurs, with an ability to design and orchestrate an innovative, agile and sustainable supplier network. We are a global organization with colleagues based in Germany, Switzerland, the US, China and South Africa.

The Category Management teams provide in-depth knowledge of supply markets, its players and their capabilities. Based on these insights, long-term category strategies are developed in alignment with the Business and/or functional strategy for sustained value creation.

As part of the gap year program at the University of Mannheim, we are offering the following position to be filled at our location in **Mannheim** by **autumn 2024**:

Intern in Category Strategy – Biologicals & Chemicals
