

YOUR GAP YEAR WITH ROCHE

Roche Diagnostics is a division of Roche. We develop and integrate diagnostic solutions that address the challenges of today and anticipate the needs of tomorrow. In more than 100 countries, we offer the industry's most comprehensive in vitro diagnostics solutions, covering molecular diagnostics, clinical chemistry and immunoassays, tissue diagnostics, point of care testing, patient self-testing, next-generation sequencing, and laboratory automation and IT, and decision support solutions. An important part of our success in transforming patient's lives sits with our Global Operations function. Our **Diagnostic Direct Procurement (DOP)** department plays a central role in making sure we can achieve that. Therefore, we are responsible for strategic supplier management and strategic procurement activities for finished goods and raw materials. Our vision is to be procurement entrepreneurs, with an ability to design and orchestrate an innovative, agile and sustainable supplier network. We are a global organization with colleagues based in Germany, Switzerland, the US, China and South Africa.

The dedicated Sustainability & Risk Team ensures a holistic approach to Supplier Sustainability and Risk Management. This team is driving frameworks to adequately manage risks, to create a real impact together with our suppliers on the planet, people and profit, and to ensure Roche's licence to operate through supplier compliance.

As part of the gap year program at the University of Mannheim, we are offering the following position to be filled at our location in **Mannheim** by **autumn 2024**:

Intern in DOP Sustainability & Risk Management

Tasks:

- Representing our team in your project(s), such as our Roche-group wide supply chain CO₂ reductions project
- Designing and creating solutions in your area of responsibility
- Workshops with other teams
- Project consolidation and follow up
- Present sustainability topics and project results in our DOP information sessions (Sustainability Circles)
- Sustainability communication within our Diagnostic Direct Procurement (DOP) organisation

Team:

You will find an international team of 6 people spread between Mannheim, Penzberg, Rotkreuz and Basel. Among us you will find risk managers, compliance experts and sustainability managers willing to offer you the means to achieve your goals, always ready to collaborate in common objectives.

Required Profile:

- You have very good communication skills, an independent and structured way of working, a passion for design, and see yourself as a team player
- You are willing to step out of your comfort zone, and be proactive but are also not shy to ask for help
- You are secure in GSpace, especially in Word, GSheets, and GSlides, and are familiar with Google applications
- You are proficient in English and not afraid of talking to international colleagues in person, via phone, video conference, or email. German is appreciated but not required

Application Details:

If you are interested in applying for the internship during the gap year, please follow the information on our website: <https://www.bwl.uni-mannheim.de/gap-year/>
