

YOUR GAP YEAR WITH BOEHRINGER INGELHEIM

We are a global, research-driven company, powered and inspired by the diversity of our people – hailing from over 170 countries, countless cultures and backgrounds. At Boehringer Ingelheim, we develop therapeutic breakthroughs that change lives – today and for future generations. As an independent family-owned company, we pursue a long-term and sustainable strategy aimed at identifying challenges and developing solutions in areas where medical and therapeutic needs are still unmet or inadequately addressed.

Are you looking for an exciting challenge in a company that achieves extraordinary things? Are you curious and motivated to achieve great things with us? Are you seeking an opportunity to expand your theoretical knowledge and put your ideas into practice?

Then we offer you the opportunity in the area of Corporate Controlling in Ingelheim. As part of the Gap Year Program of the University of Mannheim, we have the following position to fill at our [Ingelheim](#) site from [May 2026](#):

Intern (m/f/d) in Corporate Controlling

You will be a valuable addition to our diverse, collaborative, and international work environment! As one of the world's leading pharmaceutical companies, Boehringer Ingelheim offers you the opportunity to get to know various tasks of the Corporate Controlling departments (e.g., Research & Development, Group Functions, central Planning and Reporting). You will accompany us in Financial Reporting & Planning processes and support various functions (e.g. pharmaceutical Development, IT, Research). Support continuous development of conceptual controlling methodology, processes and reporting systems to sustain the requirements of a rapidly changing business environment. Gain insights into varied and exciting projects (e.g., liquidity planning, monthly reporting and forecasting, valuation projects), and benefit from outstanding opportunities for personal development, e.g., by collaboration with the controlling community around the globe.

Tasks:

- **Financial Method Development:** Collaborate with teams to develop methods in the financial area, including KPI and performance analyses, report creation and automation, and business case analyses.
- **Support Various Activities:** Assist in the diverse functions of the Corporate Controlling departments within our internationally operating group.
- **Core Function Insights:** Gain exposure to and support our core functions such as Research and Non-Clinical Development, IT, and other key areas.
- **Day-to-Day Business:** Participate in daily business operations, contributing to the smooth running of our department.
- **Steering Processes:** Learn how to steer and manage our deliverables and cost clusters.
- **Month End Closing activities:** Assist in the month-end closing activities.
- **Long Term Forecast Activities:** Support the long-term forecasting processes.
- **Dashboards:** Work with SAP Analytics Cloud dashboards.
- **Feasibility Projects:** contribute feasibility projects.

Required Profile:

- **Student (m/f/d)** of an economics degree program, ideally with a focus on controlling or accounting
- **First professional experience**, e.g., through internships or working student positions
- **Strong analytical and communication skills**
- **Structured and independent thinking and working style**, solution-oriented, team player, as well as pro-active and committed mind-set
- **Enjoyment of independent project work** and working in an international environment
- **Very good knowledge of MS Office applications**, especially Excel and PowerPoint
- **Very good knowledge of English** (German is of a benefit)

What we offer:

- **Internship** in a committed and diverse team with different backgrounds and experiences
- **Varied activities** in an exciting, performance-oriented, and friendly atmosphere
- **Responsibility** and valuable practical experience in different projects
- As a **student intern**, you can expect fair compensation (payment of the currently valid minimum wage)
- For each full month with us, you will receive **2.5 paid leave days**
- A **full-time internship** comprises **37.5 hours per week** (a lower number of hours is also possible by arrangement)
- In our team, we offer you a **hybrid working model**, where you can also work partially remote
- **Wide range of health and sports activities**

Application Details:
