In the category „Business Administration“ courses can be chosen freely from all areas.

Keep in mind that your preferred area might have **prerequisites** for being able to take specific courses or write your thesis at the respective chair.

5XX courses

- Basic knowledge of particular fields of business administration is required
- e.g., ACC 530 Group Accounting

6XX courses

- These courses often require the completion of certain 5XX courses
- e.g., ACC 626 Transaction Accounting

7XX courses

- Required seminars for the completion of the Master's thesis in a particular area or chair
- Often a 5XX/ 6XX module is required to be able to apply for a 7XX module
- e.g., ACC 7xx Seminar

Electives provide MMM students with the option to diversify their studies in a different area:

Electives are not the same as “Studium Generale” courses. Electives become part of your degree while the courses by the Studium Generale (language or IT courses) are voluntary and non-ECTS courses.

7XX courses Seminar

In order to begin your Master's Thesis, you have to **finish a seminar paper first**, usually written at the same chair or area

- Seminar paper accounts for 6 ECTS
- different application deadlines, preparation time, and processing period depending on the area/ chair
- start to inform yourself early

Master's Thesis

Master's Thesis

- accounts for 24 ECTS
- preparation time: 4 months
- procedure and approach varies depending on the chair
- for prerequisites/ information see website of the chairs

Module: ACC 520 IFRS Reporting and Capital Markets

EN

Contents

The lecture introduces the most relevant IFRS standards and discusses the informational impact on capital markets. After an introduction that will touch on the institutional background of the international harmonization process in financial reporting, we will focus on key accounting issues such as revenue recognition and financial instruments. We will illustrate the effects using current accounting practices of multinational entities, go into major research findings and apply the knowledge to case studies from accounting practice. We will conclude the lecture by an assessment of the importance of accounting for corporate governance and controlling (inside perspective) and for capital-market-oriented financial statement analysis (outside perspective).

Learning outcomes

Students will know about economic consequences of financial reporting and about the role accounting information plays on capital markets, understand the special role of IFRS on international capital markets, be familiar with the main IFRS accounting rules and their impact on financial statements, and demonstrate orally and in writing their comprehension in the solution of case studies.
