

The Mannheim Master in Business Research

The Master's Program for Future Researchers and Analysts

Breeding Ground for Future Researchers

The MMBR is ideal for Bachelor's graduates, who like to prepare for a structured doctoral program in business administration. The MMBR abbreviates the doctoral programs offered by the Center for Doctoral Studies in Business at the University of Mannheim by one year.

Analytical and Challenging

The MMBR is focused on quantitative areas of business. If you are striving for a career in e.g. investment banking, market research or logistics and supply chain optimization, the program will challenge and enhance your analytical skills.

International Cohort, English-taught Classes

The MMBR is offered completely in English language. This means students from all over the world come to Mannheim to experience research and teaching at an international top level. Interact and learn with students from all over the world, enjoy the open-minded atmosphere and make friends for life.

Specialized Track Structure

The broad variety of specializations in business administration offers tailor-made education for your individual career path. Choose from seven so-called tracks and deeply immerse in your preferred field of business administration.

WHAT OUR STUDENTS SAY

"If you are interested in economic topics, the MMBR is a great program, since it enables you to analytically investigate economic questions and how to tackle problems. These skills are very helpful to quickly adopt and understand new concepts."

Maxime Junak, MMBR Finance Track
