## Stay in Touch and Leverage Your Lifelong Learning Experience

With a over 900 people organized in them, the Mannheim Business School Network Clubs have become an extremely important part of the Mannheim Business School Network since its founding in 2018.

The Network Clubs offer added value on two different levels:

1. They offer a platform for **peer-to-peer exchange** under the umbrella of a common topic.
2. Each year, about 40 mostly virtual events take place in the Clubs, where **top speakers** from industry and mostly from the alumni network of Mannheim Business School work on and discuss topics. Here, Club members also have the opportunity to get into conversation with these speakers. The Mannheim Business School Network Clubs are thus the central platform in the network for **lifelong learning**.

The Mannheim Business School Network Clubs are an exclusive offer for students and alumni of the Mannheim Business School and the Business School of the University of Mannheim. It is a lifelong offer that does not end with graduation.
