You will spend the first and second semester in Mannheim, where you will take the five core courses of the MMM, electives of at least 26 ECTS and a research seminar (7x module). Please note, that you have to fulfill the requirements for writing a master thesis with these courses. More detailed information can be found in the MMM Module Catalog.

During the third semester you will take courses at Queen's University, including four core courses and one elective course. You will also participate in a group business project, which will take place over the entire second year of your studies. During the fourth semester you will write a master thesis under supervision of a chair at the University of Mannheim.
