Job Offer: Student Research Assistant

The Mannheim Institute for Sustainable Energy Studies (MISES) at the University of Mannheim offers several positions for Master or Bachelor students in business, economics, data science or related fields as

**Student Research Assistants (m/f/d)**
20 to 40 hours per month

The Mannheim Institute for Sustainable Energy Studies (MISES) examines the challenges and innovation opportunities that emerge from the transition to a decarbonized energy future. A particular focus of our studies is the cost associated with alternative decarbonization strategies.

You will support ongoing research and teaching projects at our institute. In particular, student research assistants are involved in literature research, preparation and handling of data, preparation of manuscripts and presentations, as well as administrative tasks.

We expect an advanced command of English, a strong academic record, intermediate skills in MS Office (Word, Excel, PowerPoint), commitment, reliability, and a genuine interest in clean energy research. Knowledge of statistics and econometrics (R or Python) is an advantage, but not required.

Please send your application with the usual documents (letter of motivation, CV, overview of previous academic achievements, extracurricular activities, etc.) via email to:
