

The **Mannheim Institute for Sustainable Energy Studies (MISES)** is offering several full-time positions as

Doctoral Candidates (all genders)

starting on 01.09.2026 (or earlier).

The Mannheim Institute for Sustainable Energy Studies (MISES) at the University of Mannheim offers positions for doctoral candidates with strong quantitative skills and enthusiasm for leading research at the intersection of business and climate change.

MISES features a highly motivated research team with a diverse, international, and interdisciplinary background. The research is published regularly in premier academic journals in the fields of business, management, economics, and science. The institute maintains a close network of renowned researchers and leading companies around the world within the domain of sustainability management.

Members of the MISES team:

- have a quantitative background and apply quantitative analytical tools with academic rigor,
- have completed a master's degree in business, economics, or a related domain,
- consistently show high commitment, intrinsic motivation, and performance,
- communicate in English with ease, both in writing and in speaking,
- enjoy working on a flexible schedule in terms of time and location.

Doctoral researchers at MISES are embedded in the doctoral program at the Graduate School of Economics & Social Sciences (GESS) at the University of Mannheim. A key advantage of this program is the extensive course portfolio that facilitates the acquisition of strong methodological and technical foundations for doctoral candidates. Details about the program can be found on the GESS website: www.uni-mannheim.de/gess

Applicants should submit their application to **both MISES and GESS**. The early application deadline is on **15 January 2026**, and the final application deadline is on **31 March 2026**. Applications from candidates not accepted in the early round will be reviewed again with all other applications in the final round. All applications are welcomed, irrespective of gender or personal background.

The **University of Mannheim** is one of the leading universities in Germany with approximately 12,000 students in five schools. Particularly in business and economics as well as in the social sciences the university ranks among the top institutions both at national and international level. More than 2,600 employees profit from an exciting work environment with numerous benefits.
