¹ **Elective Module:** Students are required to complete five of the six courses offered. The study plan presents an exemplary selection in which OPM 401 Supply Chain Management is not included. Alternatively, students may choose not to take any other one of the six courses.

² The two courses offered within the **Global Skills Lab** may be taken from the 2nd semester onwards. Courses are selected from those specified in the module catalog. The allocation to semesters is exemplary and reflects a balanced distribution of ECTS credits.

³ Course selection is made from the courses specified in the module catalog in the fields of **Business Administration, Law, or Economics**.
