6. Job Offers at the Business School

Apply for a job as a **WORKING STUDENT**

- Check company's websites
- Visit Career Fair (April), attend career events

Studying in Mannheim means enjoying life

Party like royalty: every Thursday, up to 3000 students meet in the courtyard of the University to celebrate amazing theme parties.

Start your studies right: every new year of students is welcomed in a week of party, games and getting to know your new home and friends.

Show your classy side: once a semester, students dress up and enjoy great wine and live jazz music - and all of that in a Baroque palace.

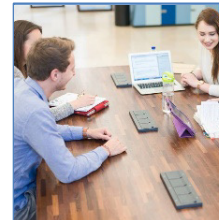

Celebrate the end of the exam period: after the exam period, students play Flunkyball and enjoy their newly won freedom.

Business Economics (12 ECTS)

Business Economics I

Fall semester

Business Economics II

Spring semester

Methods & Key Qualifications (16 ECTS)

CSR

Both semesters

Empirical Methods: Business Analytics I

Both semesters

OR Applied Econometrics

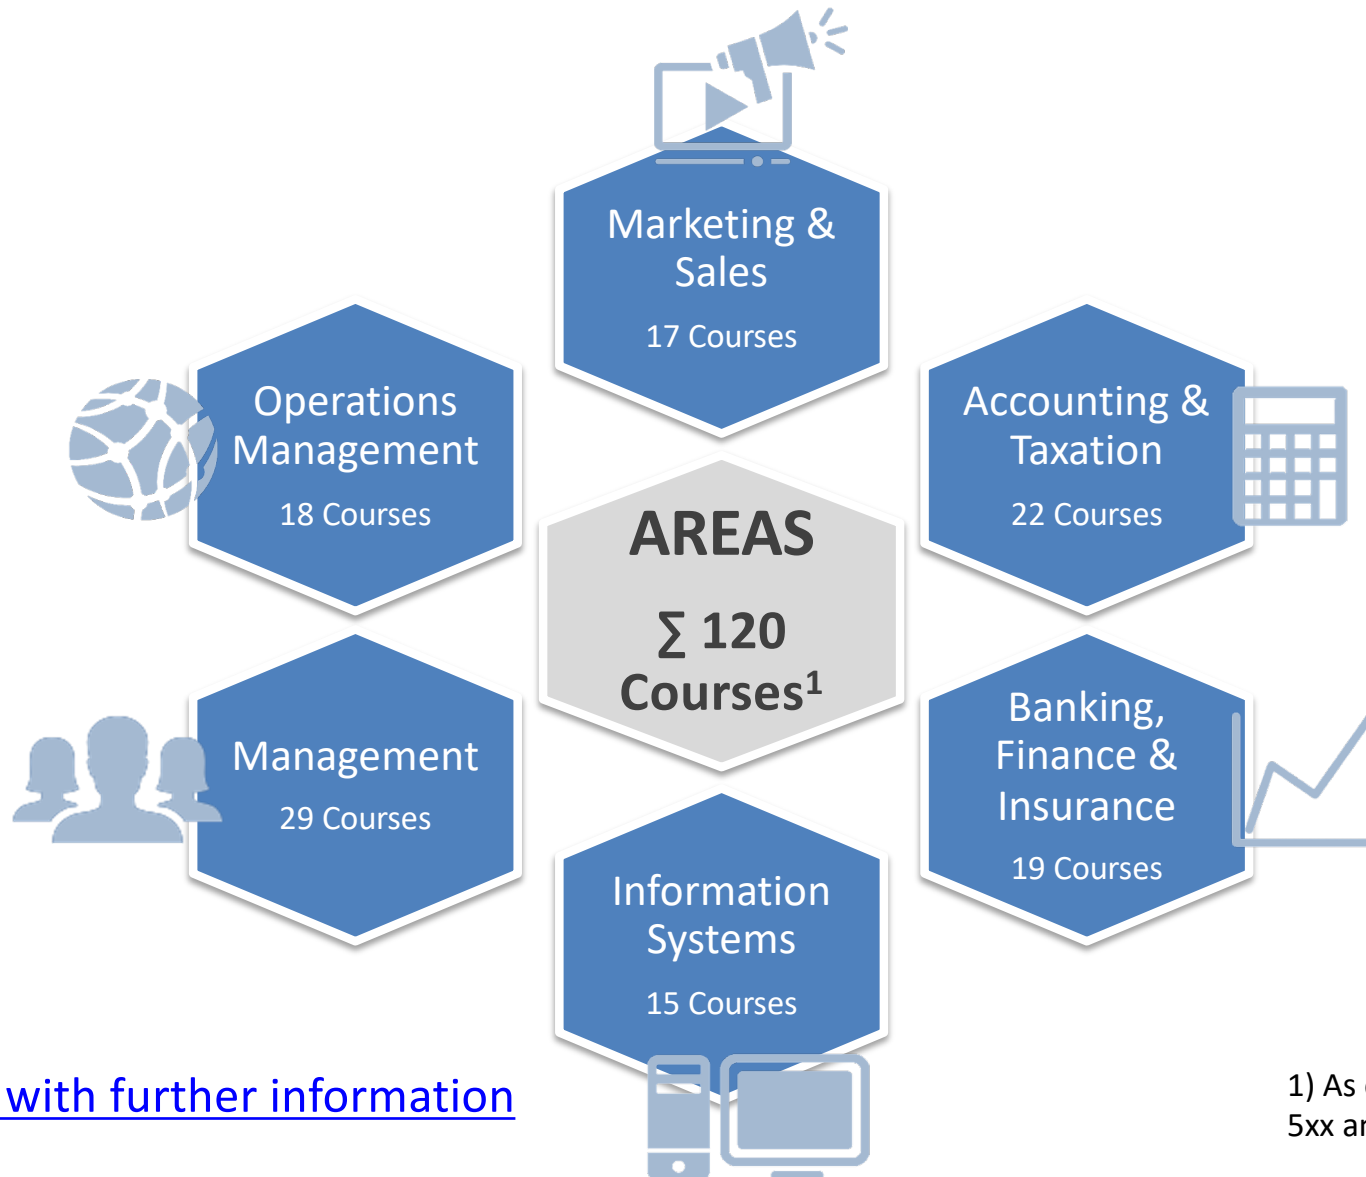

Fall semester

Decision Analysis: Business Analytics II

Both semesters

Overview: Areas and Chairs

[Website with further information](#)

1) As of July 2021, only
5xx and 6xx level

5xx classes

- Basic knowledge of particular fields of business administration is required
- E.g. ACC 530 Group Accounting

6xx classes

- These classes often require the completion of certain 500 courses
- E.g. ACC 626 Transaction Accounting

7xx classes

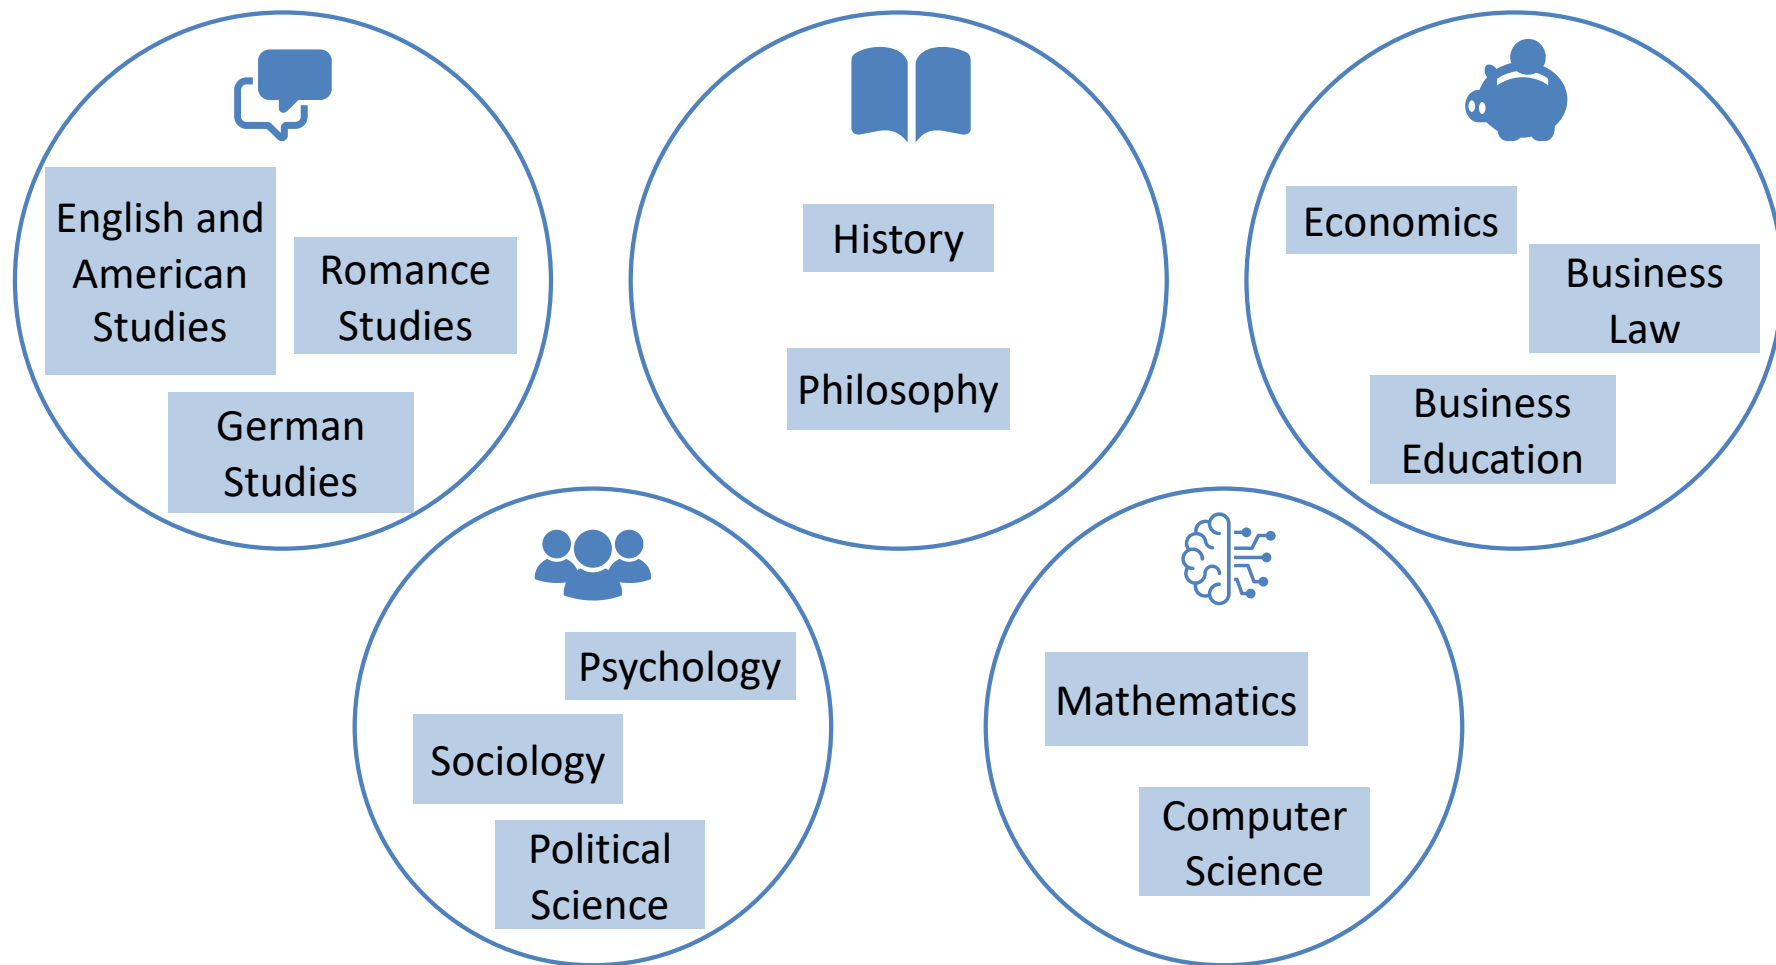

- Required seminars for the completion of the Master thesis in a particular area or chair
- E.g. ACC 7xx Seminar

Module: ACC 632 Group Accounting in Practice		
Contents: The course complements the fundamentals of group accounting by elements which are relevant in accounting practice. First, accounting after change of legal form is presented and discussed. Accounting in case of mergers is focused on. Then, specific questions relating to the consolidation according to German GAAP, German Tax Regulations and IFRS such as deferred taxes or goodwill impairment test are emphasized. The course is enriched by discussions on the latest changes in accounting regulations with respect to consolidated financial statements.		
Learning outcomes: Students learn to see consolidation from a company law perspective and are able to evaluate consolidation from a normative point of view. Furthermore, students are able to compare and evaluate accounting regulations, especially with respect to subsequent measurement of goodwill.		
Prerequisites:		
Formal: ACC 530 <u>or</u> (ACC 5XX <u>and</u> ACC 5XX), not taken ACC 513		
Recommended: -		
Obligatory registration: no		Further Information on registration: -
