

YOUR GAP YEAR IN OPERATIONS MANAGEMENT WITH ROCHE

Roche Diagnostics is a division of Roche. We develop and integrate diagnostic solutions that address the challenges of today and anticipate the needs of tomorrow. In more than 100 countries, we offer the industry's most comprehensive in vitro diagnostics solutions, covering molecular diagnostics, clinical chemistry and immunoassays, tissue diagnostics, point of care testing, patient self-testing, next-generation sequencing, and laboratory automation and IT, and decision support solutions. An important part of our success in transforming patient's lives sits with our Global Operations function. Our Diagnostic Direct Procurement (DOP) department plays a central role in making sure we can achieve that. Therefore, we are responsible for strategic supplier management and strategic procurement activities for finished goods and raw materials. Our vision is to be procurement entrepreneurs, with an ability to design and orchestrate an innovative, agile and sustainable supplier network. We are a global organization with colleagues based in Germany, Switzerland, the US, China and South Africa.

The dedicated Sustainability & Risk Team ensures a holistic approach to Supplier Sustainability and Risk Management. This team is driving frameworks to adequately manage risks, to create a real impact together with our suppliers on the planet, people and profit, and to ensure Roche's license to operate through supplier compliance.

As part of the gap year program at the University of Mannheim, we are offering the following position to be filled at our location in **off-site** by **autumn 2022**

Intern in Sustainability & Risk with the focus on risk

Tasks:

Support on building up Supplier Business Continuity Academy

- Support supplier BCM analysis
- Prepare communication and training documents for suppliers
- Internal collaboration with Category and Sourcing Managers to prioritize the right suppliers
- Participation in supplier conversations and feedback rounds (coach suppliers)
- Support in the implementation
- Conducting ad-hoc analysis requests
- Monitor progress
- get input from internal BCM expert community

Required Profile:

- You have very good communications skills, an independent and structured way of working, a passion for design and see yourself as a team player
- You are willing to step out of your comfort zone but are also not shy to ask for help

- You are secure in MS-Office, especially in Word, Excel and PowerPoint and are familiar with Google applications
- You are proficient in English and not afraid of talking to international colleagues in person, via phone, video conference or email. German is appreciated but not required

Application details:

Please send your application for the gap year program to your main contact person by February 28th, 2022

Mrs. Stefanie Burgahn
