

The University of Mannheim is nationally and internationally considered a leading school for business education and research. Outstanding performance in research and education is frequently acknowledged by ranking providers (see <http://www.bwl.uni-mannheim.de/de/presse/rankings/>) and accreditation agencies (AACSB, AMBA, EQUIS).

We are offering positions as

Doctoral Students (Wissenschaftliche Mitarbeiter, 100%) in Accounting (m/f/d)

We are looking for excellent graduates of master programs (or 4-year undergraduate programs) with a strong interest in financial or managerial accounting who are dedicated to the application of quantitative research methods and have a strong motivation to cooperate in joint research projects: German language skills are helpful but not required.

Your tasks

- You develop advanced research skills that are necessary to conduct international top-tier research
- You actively participate in the doctoral program of Mannheim's graduate school (CDSB)
- You work on research projects that relate to current issues in the fields of financial accounting and managerial accounting
- You are responsible for the collection and management of large datasets
- You are involved in the various teaching programs of the Area Accounting & Taxation and in the supervision of our students
- You contribute to the academic administration of the Area chairs

Prerequisites

You have successfully completed a master's program in management or some related field with excellent grades. Alternatively, you have completed a 4-year undergraduate program. Your grades should document that you have advanced quantitative skills. You are interested in financial or management accounting and, ideally, you had some exposure to accounting issues before (during your academic studies or prior internships). We also expect proficient knowledge of English language.

We offer

- an innovative and cooperative research environment
- the opportunity to further advance your quantitative skills and deliver new skills in the analysis of large datasets
- insights into top-tier research on many business-related issues
- the participation in one of Europe's leading doctoral programs in business at Mannheim's CDSB: <https://gess.uni-mannheim.de/doctoral-programs/business-cdsb/phd-programs.html>
- the possibility to achieve the doctoral degree (Dr. / Ph.D.)

The University of Mannheim is committed to international excellence in both research and teaching. The University currently has approximately 2,630 employees (including faculty and PhD students) and 12,000 students. Traditionally, the University has a strong focus on economic and social sciences. The University is also known for its strong interdisciplinary network across all its schools.

The Area Accounting & Taxation builds part of Mannheim's renowned Business School. The faculty is comprised of eight chair professors, several junior professors, and our doctoral students. The Area is one of the largest research groups in German-speaking countries. The Area is committed to excellence and international visibility in research. There is an active research community that frequently brings together faculty, doctoral students, and visitors for research workshops, conferences, and internal seminars.
