

Internship Global Supply Chain Excellence (m/f/d)

The Petrochemicals division is the starting point for BASF's petrochemical-based value chains globally. With six Verbund sites and several major production sites, we are present in the largest chemical markets worldwide. We supply various value chains across the company and a broad range of external customer industries with high-quality chemicals that are used in PET bottles, antifreezing agents, hygiene products and insulating materials to name only a few examples.

RESPONSIBILITIES

- Our unit Global Supply Chain Excellence is looking for a bright and creative student to support us from November onwards for a minimum 3-6 month internship.
- o You will create processes and methods to gather relevant data on Supply Chain operations out of existing SAP Business Warehouse Systems & reporting applications.
 - o A component of your work is to perform validation of Supply Chain cost and performance data.
 - o You will develop visual reports, dynamic dashboards and KPI scorecards using Power BI as well as you will improve graphic design, data visualization and user experience of existing Power BI dashboards.
 - o Furthermore, you will publish and schedule Power BI reports as per business requirements and proactively monitor and analyze data and execute root cause analysis.
 - o You will suggest improvement initiatives to boost performance and reduce cost as well as plan and implement smaller Supply Chain optimization projects.

BENEFITS

- o From day one you will be part of the BASF family.
- o You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment.
- o Onboarding to help you settle in quickly, ensuring you are part of the BASF team from day one.
- o A secure work environment because your health, safety and wellbeing is always our top priority.
- o Your contribution to a sustainable future because sustainability lies at the heart of everything we do and is a driver of growth.
