

Exposé for Master's Thesis (your thesis title)

(your name)

(date)

The exposé should contain statements on the issue, relevance, methodology, and expected results of the thesis. The more precisely you formulate and structure the outline, the easier the writing process will be.

1 Research Question

Which central question do you want to answer in your thesis?

2 Relevance

Why is the question relevant?

Why has the question not been answered yet?

Why can the question be answered now?

2.1 Theoretical Background

Which theory/theories do you want to apply?

Which hypotheses can be derived?

2.2 Methodology

Which methodology do you want to apply?

3 Expected Results (optional)

What type of results do you expect to find?

What are the inherent trade-offs to your problem.

4 Preliminary Outline

Please create a preliminary outline for the first two levels. The outline will help to discuss the topic of the thesis.

5 Important References

What are your main references?
