

The **Chair of General Management and Information Systems** is offering a part-time position as

Student Research Assistant (all genders)

starting as soon as possible.

To support data analysis in a research project on creative processes and image generation using generative AI, we are looking for a student research assistant with a bachelor's degree and a strong interest in academic project work.

Your tasks include:

Conducting qualitative and quantitative analyses of human–AI interaction data, primarily coding (based on an already established coding scheme), as well as documenting and preparing the analysis results.

Your profile:

Completed bachelor's degree in business administration, business informatics, economics, or a comparable field, as well as experience with and enthusiasm for academic research.

What we offer:

Flexible working hours, quick onboarding, and exciting research topics.

Applications from persons with a disability are given preferential consideration provided that they are appropriately qualified. The University of Mannheim is committed to increasing the quota of women in areas where they are underrepresented and thus encourages women with appropriate qualifications to apply.

If you are interested in applying, please send your application documents via e-mail or mail **by 12.10.2026 at the latest:**
