The Department of Information Engineering (Prof. Dibbern) at the Institute of Information Systems, University Bern, is looking for a qualified person to start in February 2023 or upon agreement

PhD / Research Associate Position in Information Systems

Our research focuses on the management, design and use of information systems and digital innovations. This covers topics such as IT sourcing and IT project management, digital platforms und ecosystems, KI- und data-driven organizations and digital transformation processes, and blockchain-based services und business models.

Your profile

- A completed Master's degree, preferably in business administration or information systems (or related fields like computer science or psychology with minor in business administration).
- Very good academic background with average Master's degree grade of at least "good" (4.75 CH).
- Highly committed and motivated personality with the aim of achieving top performance
- Very good English skills, additional knowledge of German would be an advantage
- Diligent and a committed team player with exceptional drive, creativity, and interpersonal skills

Your opportunities

- Specification, development and execution of your own dissertation project
- Acquisition of considerable experience in conducting research projects and collaborating with industry
- Unique opportunity to present your research results at national and international conferences
- Publishing in leading proceedings and international journals
- Possibility to earn a certificate in university didactics
- Staying some time abroad at another university
- Supporting existing lectures and student theses

We offer

- Responsibility for exciting and diverse research and teaching tasks
- Close collaboration with business and industry partners
- Working in a highly motivated and cooperative team
- Intensive assistance and support during the Ph.D. programme
- Access to a broad international network of researchers

- Attractive salary based on the personnel regulations of the Swiss canton of Bern

Take the opportunity to join our team by submitting your complete application documents in one file via email to sekretariat.ie@iwi.unibe.ch, including

- Cover Letter
- Curriculum Vitae
- Bachelor's degree (incl. grades)
- Master's degree (incl. grades)
- Other diplomas
- Employment references

Applicants who are about to complete their degree are explicitly encouraged to apply.
