

The **Chair of Enterprise Systems** is offering a full-time position as

Research Associate / PhD Candidate (male/female/non-binary)

starting on 1 August 2022.

Your tasks include:

- Conducting empirical and design-oriented research and publishing it on a national and international level,
- Supporting the organization, preparation, and implementation of teaching,
- Working on cutting-edge research projects on topics like design, implementation, and use of enterprise systems, management analytics, digital platforms, and machine learning.

Your profile:

- A university degree (Diplom/Master of Science) with an average grade of "good" or better and the intention to pursue a doctorate,
- A degree in Business Administration, Business Informatics, Computer Science or related disciplines,
- Very good level of English proficiency, possibly consolidated by one or several stays abroad,
- Experience in working on industry and/or academic projects.

What we offer:

- The opportunity of pursuing a doctorate at the most successful Business School in Germany,
- Working with a motivated, success-oriented, and socially competent team at the chair,
- Taking on independent responsibility early on,
- Personal development opportunities through close cooperation with international and national research institutions as well as leading industrial companies,
- Various training opportunities to broaden your expertise in research and teaching (e.g. attending graduate classes at the Center for Doctoral Studies

With approximately 2,630 staff members and 12,000 students, the **University of Mannheim** is an academic higher education institution with an outstanding reputation in research and teaching.

In particular, the fields of Economics and Social Sciences, which are traditionally very strong at the University of Mannheim, rank among the top institutions both at national and international level. A special characteristic of the university is the high degree of networking among its five schools.
