

Module: Bachelor Colloquium**Contents:**

The Bachelor-Colloquium allows students to present (after about 1 month of writing the bachelor thesis) the outline and specific topics of their thesis and to discuss the contents with other bachelor students and members of the chair. The aim is to support the thesis development process and to identify possible issues at an early stage.

Learning outcomes:

By the end of the module students developed

- academic presentation skills,
- strengthening of critical thinking with respect to scholarly work,
- knowledge of important challenges within the research process.

Prerequisites:

Formal: Acceptance to write a bachelor thesis at the chair of organization and innovation (as assigned by the study office)

Recommended: Interest in scientific research

Obligatory registration: yes

Further Information on registration:
Website of the Chair / "Student Portal"
