

Internship Digitalization and Ecosystems (m/f/d)

We are the world's leading chemical company because we offer intelligent solutions for our customers and for a sustainable future. We connect and develop people with diverse talents all over the world. For you, this means a variety of ways to advance. Not only your performance but also your personality matter to us, without regard to gender, age, origin, sexual orientation, disability or belief. At BASF, careers develop from opportunities.

The Lampertheim site is headquarter of BASF's Nutrition & Health business unit. Lampertheim is located amidst the Rhine-Neckar triangle, to the north of Ludwigshafen - the world's largest BASF site and Group headquarters. You will find this to be an attractive place for both work and leisure time.

What you can expect

The Digitalization & Ecosystems team implements or enhances strategies to enable future growth of the Nutrition & Health division. We are looking for you for a 3-6 month internship from February 2019.

- o You provide agile project management support for our digital innovation projects.
- o Furthermore, you conduct market research in the field of "e-commerce" and "digital applications" and analyze our competitors.
- o From the obtained results, you initiate strategic actions and create presentations for the executive management.

What we expect

- o You are a student of economics, business chemistry, business informatics or a comparable discipline and gained above-average performance here.
- o Besides you have already gained practical experience in the field of digitization, additional experience in the field of Marketing would be a benefit.
- o Apart from that, you are actively involved in your team and you are used to work independently.
- o Furthermore, you have a solid command of German and English.

We offer

From day one you will be part of the BASF family. You will get involved in challenging fields of activity and have the opportunity to work on exciting projects in an interdisciplinary environment. Depending on the location of the respective group company you will get to know BASF and participate in various workshops and guided tours. In this way you will make numerous interesting experiences and get a deep insight into the world's leading chemical company.
