

Kaiser X Labs GmbH Stuttgart

UX RESEARCHER (M/F/D)

WE ARE THE STRATEGIC EXPERIENCE DESIGN COMPANY OF ALLIANZ.

We resolve complexity to transform the ordinary in progressive ways. We are experts at making complex products simple and digitally accessible, delivering validated user experiences in the business of trust. Our strength is built on shared values that inspire and we are always looking for creative and passionate people who are interested in joining a great team.

YOUR ROLE & RESPONSIBILITIES INCLUDE TESTING, RESEARCH & USABILITY ENGINEERING.

As a UX Researcher, you will collaborate with a team of other researchers, creating and executing diverse research investigations that shape new innovation concepts and drive a user-centered development process. It will be essential that you have knowledge and experience of core user research practices and the ability to share insights in ways that increase empathy.

YOUR EXPERIENCE IS WHAT WE ARE LOOKING FOR:

- → Experience running user studies at varying stages of product development, applying a variety of qualitative/quantitative research methods and practices
- → Excellent understanding of Agile software development and the value UX Research brings to product teams
- → Passion for designing mixed-method research studies, that generate actionable insights, and measurable impact for project teams
- → Ability to be a persuasive advocate for user needs within multidisciplinary project teams, educating others about the value of UX research
- → Confidence in communicating research findings through oral, visual, and written communication

A company of **Allianz** (11)

Kaiserstraße 28 / 80801 Munich, Germany / T. +49 (0)89 3866790 Silberburgstraße 112 / 70176 Stuttgart, Germany / T. +49 (0)711 35844202 Bockenheimer Landstraße 42 / 60323 Frankfurt am Main, Germany Drostestraße 16 / 30161 Hanover, Germany / T. +49 (0)511 89939545 info@kaiser-x.com / www.kaiser-x.com

- → Intermediate to senior experience level working in UX research, usability testing, technical consulting and implementation, or in a related role/field.
- → 3+ years of experience doing what you do
- → Fluency in German and full professional proficiency in English

IT'S ALSO NICE TO HAVE:

- → a degree in UX Research, Human Computer Interaction, Cognitive Science, Psychology, Market Research or a related field
- → Proven understanding of the strengths and weaknesses of different research methods
- → Ability to flexibly work across multiple projects, effectively prioritizing tasks

WHAT WE OFFER IS AWESOME!

At Kaiser X Labs we believe that a healthy work-life balance benefits everyone and that great teams need diverse talents. As a company of Allianz we are able to offer you competitive compensation and benefits in line with your experience. And we provide you the chance to work in an open and interdisciplinary space where diverse perspectives come together to shape the future of insurance.

APPLY NOW

Your strength and experience is your most important asset; therefore, everyone, independent of other features, such as gender, race, descent, religion, sexual orientation, age or disability is warmly welcomed.
