Open Questions

What did you particularly like about this course?

- I like the connections of different topics and it is a great feeling to link these topics by myself
- I particularly like the fact that the teacher's explanations were very clear, practicable and easy to follow.
  I also appreciated the time the professor took for us for the Q&A Sessions every Tuesday evening.
  The tutorials were also very well structured and held.
  Overall I am very satisfied with the good organization of this entire course, despite the challenges that we are all facing right now.
  Thank you!
- Youtube upload
- exercises were much better compared to last year in terms of understanding!!! So good. The pace and choice of tasks.

  Also thank you for providing the videos on YouTube, it really helps.

What should be improved?

- Please choose another way of uploading the lecture videos. It's very difficult to watch it because it always stops. Some other courses include a download option which helps a lot.
- The Quizzes are not appropriate for what we see in exercises / lectures this year.

  I'm not quite sure how this year, with the shortened term and adjusted exercises, the past exams will help to prepare. Me and my friends feel like the subject is being taught a lot differently than last years, also content wise - which is fine - but hopefully it will be considered in the exam what we can know / can't.
- slides are hard to understand without the explanation
