Auswertungsteil der offenen Fragen

Auto-Gruppe

What did you especially like about the course?

Maug for president! ~~:D~~

---

you get new ideas through other students opinions

- Case approach generally a good idea

o Excellent concept

- Case studies helpful in understanding key concepts
- more guidance on cases –

Bis jetzt bester Kurs in 3,5 Jahren in Mannheim. Danke!

Bester Uni-Kurs seit 3.5 Jahre in Mannheim

Best course I visited so far - Bachelor included
Professor is very enthusiasthic and helps students to understand the contents

You learn a LOT
Strict guidelines

Probably the course I learned the most during the four years I've been attending courses in Mannheim. Very interesting course. ~~with~~ Although it was a lot of work, I think it is worth it and I can only recommend taking the course for future students.

Interaction.

- very interesting + learned a lot

- high learning curve

reading of public notes difficult
in testing cases, could be more
recent at times

What should/could be improved?

Case discussing is too long (difficult to concentrate in 2nd half)

- Even though the cases are supposed to encourage critical and creative thinking, the questions could have been a little more straightforward.
- sometimes not all questions were discussed with no real opportunity to learn from mistakes as there was neither the 'correct' nor one possible 'correct' solution provided

Maybe less case studies but in exchange better feedback. No learning effect from case studies if feedback is not sufficient.

Smaller discussion groups
Ability to switch sessions if necessary
Make it clearer what is expected of students with respect to the selection of the cases

- Kein wirklicher Lerneffekt bei den Case Studies
  - Handout/Anmerkungen helfen nicht weiter da zu Umfangreich
  - keine Auflösung in den Diskussionen am Schluss (wie macht man es in der Praxis? Welche theoretischen Konzepte werden durch praktische Handlung verletzt
  - weniger Cases, dafür besser bearbeiten (den CS-Kapazitäten entsprechend)

Smaller group size would allow for more interaction

~~It should be ending to~~
~~the median case should not be a must to~~
It should not be a must that the median case has to be part of the final grade, since it was the first case and student should have the opportunity to learn from their mistakes

- too many people in case discussion
-
=>
- especially first case difficult to predict what expected outcome is

lower class size

The first session about expectations ~~BEP~~ we hand in the first case

- ~~to do~~ to discuss all exercises and not only a part → otherwise there is no improvement effect
- there should be a participation grade (instead higher value of case grades)

In the first / before the first case discussion it should be clearly announced on the website whether it is allowed to use information for the write up that is not provided in the case study.

Lectures held by TA should be improved or reduced to keep the high quality of the professor

Transparency in grading the cases
Clearly state the weights assigned to each question

Lecture of relevant topic should be one week earlier

Could give hints how it is done in praxis

Sometimes the time needed for the correction of the cases was simply too much. I understand that the review process takes a lot of time but especially towards the end of the semester the case grades gain importance.

- 5 cases are too much for one semester
- Would be nice to learn case-study relevant things in the lecture
- correction of cases often not very helpful
- Übungsleiter might work harder

- different requirements for the cases/grades (of the assistant tutors)
- no solutions for the really difficult questions within the case discussions!

- Discussion dominated by a few / not objective
- Case assignment seasonal since qu. use equity reports from investmentbanks - others make disadvantaged..
- To many cases for ECTS!

- participation grades, quality in transparent, should clear! Design in procedure, e.g. only grade bonus for particularly active participants

---

Group is too large to have a real discussion.

- too many cases
