What did you especially like about the course?

The breakdown of case study solution, which helped me understand the case much better and help me see where I misunderstood	Case studies are really helpful in understanding material
Good parallels to the real world	Great cases, nicely chosen topics and focus points
interesting topics	Overall very good experience and appl. of theoretical knowledge
I'd like the open questions!	

What should/could be improved?

transparency of grading	Exchange of paper's among Students Walk-throughs with PhD student's after check of papers.

More info on slides ~~Better~~	grading of class participation is a bad idea given the size of the course
- It is frustrating if people use open questions on a specific subject to just bring in their own new argument	Grading is extremely intransparent
Too many people for discussion sessions. I hope that raising hands is also part of oral mark because sometimes I do not get called. Lecture sometimes not fun like with cases	Smaller group sizes → higher chance to participate for each one
Please do not grade participation – weird stressful athmosphere in order to be able to contribute	Seminar classes easy to change for discussion
Not so much focus on cost of capital	Smaller discussion groups,
