What did you especially like about the course?

Extremely effective learning experience through case study method. Practical relevance! (at an otherwise academic institution) provides great balance to learning experience	Real-world cases.
Good learning effect from case preparation	I learned a lot → very deep
Good format to have the Socratic talk for the case discussions, be a bit more clear on which material and sources should be used. Searching for literature is a waste of student's	The professor is so cute.
Perfect and unique!	The fact that is really interactive

What should/could be improved?

RIM model lecture before case would have been nice	It would be better if we can see top students' case write-ups. So we can improve our future case analysis and writing abilities.
the course is well structured but we always too much about the conceptual issues, have no time for technical issues. However, during the process of solving the problems in the case study, we are really confused about how to do in some technical issues.	Teach relevant things before the case. Grading criteria are arbitrary and not well explained.
-Discussion „1 Case" not needed - coordinate lecture material + Cases - no grading ~~paper~~ & (not clear what is graded, raising your hand or answers	Discussion did often not resolve case questions. Inefficient, because students took discussion far away from topic with irrelevant statements.
smaller classes	Mehrmals als neg. Feedback im Case folgendes Feedback erhalten: „more qualitative points" → unverständlich bei „CF1"!
Es ist eine Freiheit, dass jeder ILIAS eine Case Frage mehr oder weniger versteht wird, und die entsprechende Einstellung wenig mehr Verständnis wieder entfernt wird, Dann kann wird von Wissensmangel propagiert, dass gegen Mittel als Risk Premium durch einfache ~~Ex~~ Cases falsch abzustrafen ist aus meiner Sicht unfair!	If classmates say something wrong it should be indicated that it is wrong
Fixed seating is unfortunate when you show up late for the first session. :)	Case discussion is really good, but I would like to have all the interesting topics discussed if possible. And case feedbacks are really important.

lecture could be synchronized with the cases - less weight (grading) on participati	- better providing of clarifications of the case grades
• More Q&A session • More exercise for each chapters. (theoretical + practical practices, also helps to prepare for the exams).	System of discussion sometimes doesn't allow you to state your idea simply before someone else; and it takes a fight to compettion, sth. to fight for to express ideas. Would be better (and hard to do & consider) if there were a systematic approach to this.
