What did you especially like about the course?

Cases, depth of content	The possibilities offered to ask questions and the competence when of the Case Leaders.
interesting; der Kurs war anwendungsorientiert durch die Fallstudien; aber sehr aufwendig 12 ECTS wären angebracht	• the cases helped to learn to apply the theoretic knowledge
Interesting topics in lectures Case study structure	Very clear explanation by professor normally. friendly & open to students' questions.
practice examples case seminars professor's teaching style	The way of ~~[illegible]~~ Professor to explain the material & unique to respect of the actual academics and business.
EVERYTHING	Case studies are good, because you learn a lot.

• lot of examples	Prof. Maug's competency
A lot of practical examples Excel tutorial	The professor himself is so good.
Overall great insight	It would be great if the ~~cases are graded~~ lecture discusses the content for the cases ahead.
- repeated questions - best course so far	Cases are interesting
Coules Prof!	• Lieber vermehrt durch Case Studies
Case-Approach	• Ausführlichere Antworten im Forum

- super Struktur, mit vielen Fragemöglichkeiten	Your Socratic manner of discussing the cases. I even told my mother about it.

What should/could be improved?

• slower speed when explaining • more structured slides • making slides available earlier	please provide lecture slides earlier!
More guidance on how to do case study.	Admission criteria questionable, Capacity limit } essentially unacceptable of course }
Upload slides before at least 2 days and finish lecture in time	lectures passend zu den Fallstudien siehe Residual Income Method ⇔ Pennac ⇒

• Upload slides earlier • cover topics useful for cases earlier • provide exercises to practice for the exam	(I) the time allocation can be improved since we were unable to cover all of the course content extensively.
- GRADING OF CASES (BE CONSISTENT WITH METHODS). - CRITERIA FOR CASES AND GRADE ARGUMENTATION ARE STRANGE	For people that ~~need~~ not attend the corporate finance bachelor course because they don't study BWL it would be better if all slides are explained (cant not said: you know this from your bachelor course) Sometimes relevant lectures are made shortly before the cases.
- some aspects were explained too fast - very very very hard for someone who did not have much of prior knowledge -> especially if the subject is not explained in the course (eg RIM)	• too often prior knowledge out of bachelor course (I hadn't) supposed • when you have to use models of the lecture in the case studies → best to discuss it in class (→ RIM)
Puma case is simply bad - wasted several days on it. → Necessary material (RI) wasn't covered In general, I think fewer cases would allow for more studying of the lecture notes.	some of topics should have been described better as my prior knowledge wasn't always enough.
- Slides should be uploaded not at the day of lecture, but earlier in order to have enough time to print ##	consecutive V 3 hours is a little bit difficult to concentrate.
Difficult application process	• slides further headloaded (upload slides earlier)

Discussion 1 Case weglassen Slides eher hochladen.	- wrap ups of cases / or short summaries
· Classes are too big for good discussions · I don't know about how oral grades can be made, if I just raise my hand I am participating but its only luck if I can say something so I never how this is made	- uploading slides earlier -
Struktur der gesamten Veranstaltung war nicht ganz klar.	· mündliche Bewertung mit Verbesserungsmöglichkeiten und -sichts · wenig Klarheit bei Case Besprechung an die Lehre zu Gunsten lieber Aufwand für Case Slides (deshalb nicht in 2 Tagen zu bewerkstelligen)
· Mehr Informationen zur Klausur · Teilweise klarer die Aufgaben der Cases gestalten (oft nicht ersichtlich, was verlangt wird)	- als Mannheimer Bachelor z.T. doch sehr viel Wdh. gefühlt kann man in den Case Studies mehr Neues - es sollte vllt. etwas mehr vorgegeben werden, dass die nicht behandelten Lectures dennoch für die aktuelle Case Studie benötigt werden
- New cases - Less subjective case grades ~~More consistency with~~	*Abstimmung von Vorlesungsinhalten auf Case Study schlecht *
Clear outline of material to use. Or maybe write your own book?	Use more the blackboard for numerical example.
