What did you especially like about the course?

Lecture: Very interesting

- Prof. Maug's style is engaging & stimulating.
- The forum was always well managed & questions always promptly replied to.
- Useful Excel tutorials

This course was good in general

Prof Maug is a god!!

We need atleast 5 lectures a week

The lecturer explained the materials ~~roughly~~
and thoroughly and clearly.

No exercise in this lecture makes me a hate

Confused about the exam.

Combination of theory and practice.

-It's noticeable that Mr. Maug is at the forefront of corporate finance research

~~Thank you for your time and effort~~

~~Thank you for your time and effort~~

It would be nice to have at least a few exercises to prepare for the exam.

• Content
• finesse of finance

Well answered, provided readings

Practical insights & relevance

great over course
Prof. Maug is great

Not satisfied with the case.

- Interesting
- challenging

The professor has deep understanding of his major,
but still pays special attention to students' needs,
and weaknesses.

Ⓢ It's both ~~research~~ and ~~practical~~ practical.
oriented

Very interesting and deep analysis
of corporate finance concepts.
Very interesting professor

- Prof. Maug provides great insights
- Very interesting course

What should/could be improved?

Slides are hard to follow

- More built-in mini real-life cases to cement the concepts & their applications
- More exercises & practice questions to ~~add~~ aid in exam preparation
- Summary and review session to tie things together & highlight inherent connections
- Excel tutorials unfortunately timed ~~at~~ very late in the evening, ~~practically~~ affecting energy & focus levels.

Please also provide exercise courses!
We really have no opportunity to ~~to~~ practice what we learned.
Even if there are no exercises, please upload more previous exam questions...
We don't even know the structure of the exam...
And how come we only get 5 BLTs even though we have two courses in a row per week?

please provide old exams or any form ^{of} ~~for~~ practice opportunities for your exams

Maybe practice TESTS!

The voice of the lecturer is a bit low, it is hard to catch up sitting back in the classroom.

better to separate the session into two parts in a week,

- more exercises / problem sets to understand the content

- Use a microphone, it makes it easier to listen
- A previous exam would be very helpful to see how questions will be structured

Information about Exam

Exercise class ~~extra~~

- especially for those who don't take the case study course
- calculate things relevant for exam / practice

were sample questions / practice material
some more copies of the textbook in the lecture-
summary

Blinds against sunlight/heat

Corporate Finance II - We need it
We want it
we crave it ▽

unclear what to expect in exam & ~~how~~ how to prep

Room small for first 1-2 lectures, adequate afterwards.

slides could be better structured to be self explaining

→ sometimes it seems we jump between topics

→ often only statement without proof/derivation

better structure of slides

For people who don't do case studies, it would be nice to still have some exercise questions to practice.

The temperatures / blinds, especially on hot days, were not of good quality

↳

(especially the not working blind to Schneckentrip direction)

Slides not comprehensible
"Story" / Structure not clear

Problems since no KY to specific reader
individual

Slides of Lecture are sometimes hard
to follow and some focus will be lost
→ maybe split it etc.?

Microphone should be used

Case Studies: groups were too big
first 2 cases were chaotic,
structure should be improved

- no clue what to expect in the exam

Information on how the ~~exam~~ exam will be structured

Need for exercises / material to prepare for the exam !!!

- more up-to-date data would be interesting sometime
- more exercises to prepare for exam
- Earlier time of the day for lectures
