What did you especially like about the course?

· Deal of the week · Nice lecture · Abstimmungen: Gute Idee! Umsetzung nicht immer ok	Reference to current business events! Cases!
- Teacher - Deal of the week	nice, interesting lectures. It was great that the instructor always posted the lectures, thank you!
Deal of the week Guest lectures	Found it very good that slides were handed out by the instructor before the lecture. The participation possibility for students via PollEV is also a very good idea.
- nice atmosphere - friendly speaker - deal of the week	- practical applicability through cases
Great use of examples with "Deal of the week" every class Case studies and discussion. live polls during class for questions.	- Polls - Deal of the week - Schneider's teaching style

interest	I liked the guest lectures as they provided practical hindsight on the situation (especially Rachel) I like the structure of the course.
slides provided in printed form lecture overall was quite satisfactory	interesting guest lectures
Deal of the week, polls,	- deal of the week
May put more time explaining some of the more complicated models (minority freeze-out) Give additional readings/chapters from other books as the compulsory reading does not follow the lecture content very closely & sometimes additional reading is needed	Really appreciate to talk about a current deal every week. It makes the content of the course more actual.
- good course size Mal allowed discussions in the course	A lot of practical examples. Very friendly and knowledgeable instructor
- Friendly lecturer - Environment which encourages discussion and questioning - Content - Events with practitioners	Deal of the week

What should/could be improved?

- Please upload slides
- Time slot for lecture is rather late
- ~~Plan~~ Structure der Vorlesungen besser herausarbeiten
- Slides mit Selbststudium (ie ohne Vorlesung) leider nicht Standard

Maybe a less theoretical / paper-based approach and focus on practitioners skills

Some tutorials / sample exams, I don't really know what to expect from the exam now and that's not great

Slides could contain a bit more explanations. In my opinion, ~~it was sometimes~~ some concepts were not so easy to understand.

first 1 or 2 lectures were basically without any content and could be skipped

There should be power plugs at the tables and not just one at the very back of the room
Lecture slides should be posted prior to start of class
Grading of participation.
Groups of 4 for case studies.

- Maybe provide topics in a more structured way, e.g. by different stages in M&A Process etc.

- even if stated in the beginning: slides should contain more information
-

more "preparation" for exam

Right now I have no clue what to expect

more focus on the topics announced in the beginning: real options, game theory, APV valuation
Too much focus on empirical findings

- outline structure more clearly	In the recommended readings one chapter from the main book was missing on the merger arbitrage topic - failing to notice that on our own had an impact on the grade (as I believe chapter was exam relevant) Not all the graphs were well-explained - axis or units not clear
The course as a whole gave a good overview over current topics in M&A. However, knowledge acquired in CFII is less relevant for internships / actual work in M&A and could be provided by some more modelling (Integrated Business Plans) and Merger Models.	Dislike the way the slides are presented. Not well structured, and sometimes the slides are too "light". Even if you're concentrated in class, you still don't get the meaning of some sentences.
- maybe go with another mobile call provider (via QR codes)	Sometimes the explanations were too fast
Content goes a little bit too fast, many details were not explained clearly	- All slides can be available before hand - Readings presented in a structured way on syllabus - Case related topics should be introduced prior to study
