Comments Report

1. Course Evaluation

1.15) What did you especially like about the course?

- - Broad overview over all topics in Corporate Finance
  - Teaching style and knowledge of instructor really helps to understand the covered topics/papers in depth
- The presentations made by each student about recent research topics in corporate finance.
- Very good choice of topics; the course helped me to understand what research in corporate finance actually means; good balance between theoretical studies (both classical and recent ones) and state-of-the-art empirical topics (structural estimation was really interesting); even though I do not plan to do research in corporate finance, the course would definitely give a good starting point to do so and it furthermore increased my interest into the subject a lot

1.16) What could/should be improved?

- - Difficulty of the papers for the individual presentations varies quite a lot
