

## Brownbag Seminar Fall 2020: Operations Management & Operations Research

### Description

The seminar series is supposed to be a regular non-mandatory meeting for members of the Area Operations Management, the Chair of Business Mathematics, and others. The focus is on presenting and discussing

- ideas for further research
- intermediate reports regarding ongoing projects, and
- recent final results.

The seminar's designated target is to establish a discussion platform, to increase awareness of research conducted in the areas. Topics of presentations may cover all aspects being relevant in the field of Operations Management & Operations Research. All members of the areas are highly encouraged to contribute by presenting their work.
