Prof. Dr. Christoph Spengel / HWS / 6 ECTS

What is
it about?

Introduction to the **interplay between legal form and taxation in Germany**

- Students become acquainted with the taxation of German companies of **various legal forms** and undergoing **various legal events**
- Covers **all taxes relevant to** (domestic) **business decisions** [(local) corporate, personal, inheritance]
- **Focus on how to calculate the tax burden** of profits and shareholder compensation payments **depending on the legal form**
- Course enables students to comment on the tax-optimal choice of legal form
- Course only offered in German

Knowledge gained in this course is deepened by **advanced courses in the area and courses offered by adjunct faculty**

TAX 530: Taxation of Businesses and Individuals

TAX 530: Taxation of Businesses and Individuals
Prof. Dr. Christoph Spengel / HWS / 6 ECTS

What is
it about?

Focus on basic principles of different types of taxes and structure of these taxes

- focus on the tax systems in the **EU member states and the US**
- relevance as well as the consequences of the transparency principle and the corporation principle
- **assesses tax burden on profits as well as on shareholder** dependent on the legal form of the business

Introduction to

- how taxes influence business decisions
- how tax planning opportunities are created by business tax law

Knowledge gained in this course is deepened by **advanced courses in the area and courses offered by adjunct faculty**

TAX 620: Applied Empirical Research

TAX 620: Applied Empirical Research: Methods and Practical Implementation
Prof. Dr. Philipp Dörrenberg / Prof. Dr. Johannes Voget / HWS / 6 ECTS

What is
it about?

Overview of most important **methods for applied empirical research**:

- concept of causality and methods to estimate causal effects

Students will gain **practical experience in conducting empirical analysis**:

- introduction to a statistical software package (Stata)
- introduction to accessing and analyzing large data sets, e.g., Compustat

Relevant for **many purposes**:

- Course provides a basic skill set required for both academic research and jobs in industry and consulting (data analytics, etc)
