# LOOKING FOR A COOL CHALLENGE? JOIN THE MAGIC. START HERE.

## SUPPLY CHAIN CONSULTANT

Nice to meet you! We are OM Partners, a game changer that optimizes supply chains of the world's leading companies with our very own smart software. Some of our happy customers are ArcelorMittal, BASF, Dow, Johnson & Johnson, Michelin, Shaw, Procter & Gamble and Smurfit Kappa.

We're a growing international company with lots of opportunities for our people. To support this strong growth, we're looking for Supply Chain Consultants to join our German team. Are you ready for the challenge? Read on!

### Your challenge

As a Supply Chain Consultant, you have only one goal: to provide the customers with innovative supply chain solutions that work.

Towards your customer, you're a partner. You guide them through the entire project lifecycle:

- You visit the customer regularly ( $\pm$  30% of your time).
- You analyze the customer's planning challenges and advise them in designing a new planning environment.
- You implement the planning and scheduling solution with our rich planning tools.
- You validate it with the customer's project team.
- Finally, you train the customers in the use of their new APS.

At all times you work in close collaboration with your colleagues. You connect with our product development team to influence future developments based on your project experience.

Lifelong learning is not a buzzword at OM Partners. Here, you are continuously coached and encouraged to grow and to develop your career.

### Your profile

You have a university master's degree in one of the following study fields: Wirtschaftsinformatik, Wirtschaftsmathematik, Betriebswirtschaftslehre or equivalent - ideally with a focus on Supply Chain Management, Operations Research or Logistics.

Experience in one of our target industries (semi process or mill products) is an advantage.

You have a strong affinity for IT, as basic programming skills in any language are required. Knowledge about mathematical modeling is a plus, but not mandatory.

You also communicate fluently in English and German (level C1) and enjoy working in a multinational and customer-driven environment.

You are creative, eager to learn and have an attention to detail.

You are passionate about what you do, fun to work with and a great team player.
