The University of Mannheim is nationally and internationally considered as a leading school for business education and research. Outstanding performance in research and education is frequently acknowledged by different ranking (see www.bwl.uni-mannheim.de) and accreditation agencies (AACSB, AMBA, EQUIS).

Open positions: The recently established **Chair for Data-Science in the Economic and Social Sciences** at the Business School of the University of Mannheim led by Prof. Dr. Markus Strohmaier is offering several positions on different levels including

<div align="center">

PhD students
Post-doctoral researchers
Junior faculty members / Assistant professors

</div>

The Chair for Data-Science in the Economic and Social Sciences is set up as an interdisciplinary research group with cross-affiliations with the School of Business Informatics and Mathematics and the School of Social Sciences. It will collaborate with the Mannheim Center for Data-Science of the University of Mannheim as well as the Management Analytics Center at the Business School.

Being one of the largest business schools in the German speaking countries, we offer an active research environment, a broad variety of research opportunities, and provide support in advancing career perspectives.

We are looking for excellent students and junior researchers in the field of 'Data-Science' with an ongoing stream of high-quality research. A successful candidate is dedicated to the rigorous application of quantitative data-driven research. We will prefer candidates with a research focus on machine learning, neural modeling, text mining, complex systems, network science or artificial intelligence and a demonstrated ability of applying these methods to research questions in the economic and/or social sciences.

Candidates will be expected to make contributions to the teaching at the chair for Data-Science in the Economic and Social Sciences and assist in the development of the course offerings.

The University of Mannheim values diversity and is an equal opportunities employer. Women and individuals with disabilities are strongly encouraged to apply.

Candidates should submit their application including a curriculum vitae and transcripts as early as possible by e-mail to:
