Course of Study

Targeted degree:

Semester (only for your actual course of study):

I attended the course regularly:

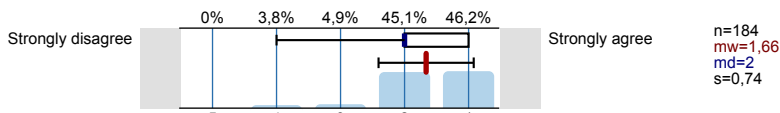

I am an exchange student:

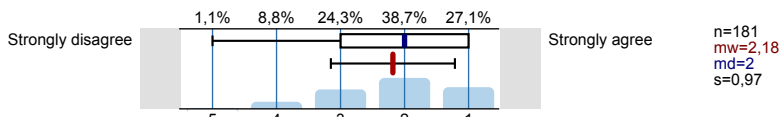

Evaluation of the course

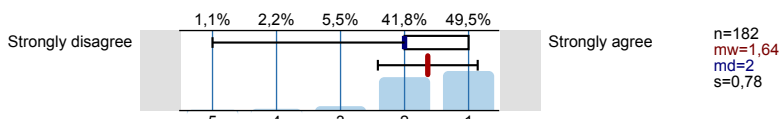

Course objectives were clearly stated.

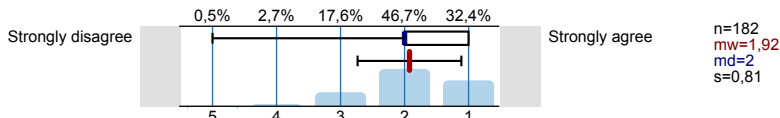

Course requirements and criteria for grading were clearly explained.

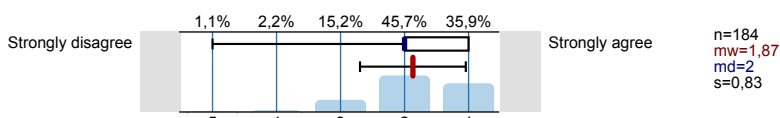

The course was well structured.

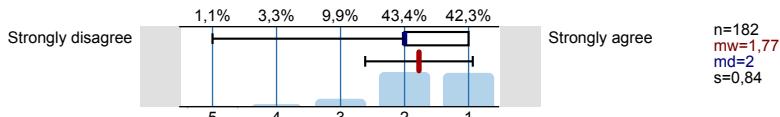

The choice of topics was explained by the instructor.

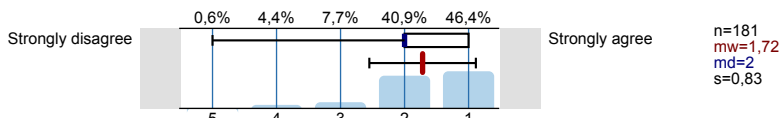

The choice appeared well-founded to me.

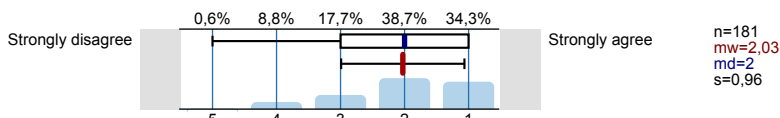

Dissemination of subject matter was appropriately placed over the semester.

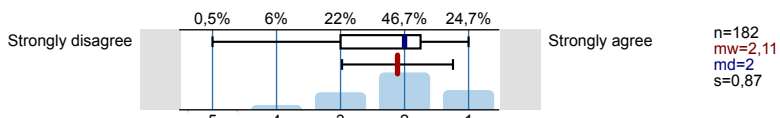

Course content was presented in a comprehensible manner.

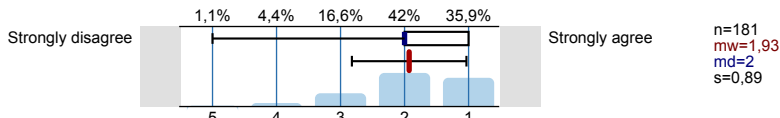

Instructor illustrated subject matter with examples from the business world and from current research.

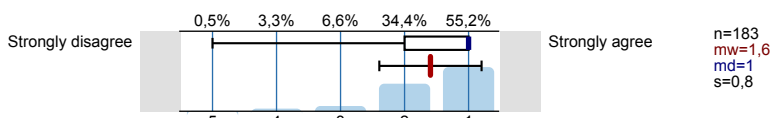

Where appropriate instructor drew parallels to business-related disciplines.

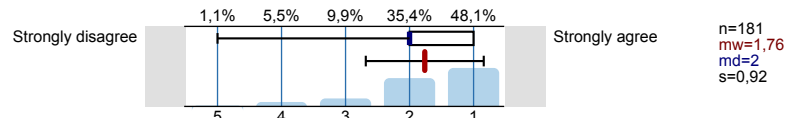

Instructor incorporated audio-visual media effectively (e.g., blackboard, overhead projector, video, beamer).

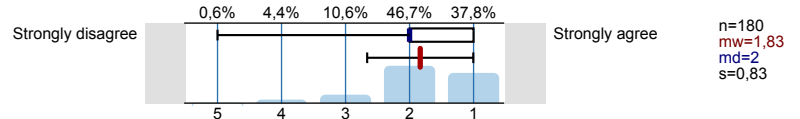

Visual materials were easy to read and follow.

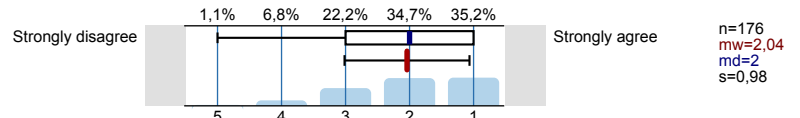

Instructor provided the opportunity for questions regarding content.

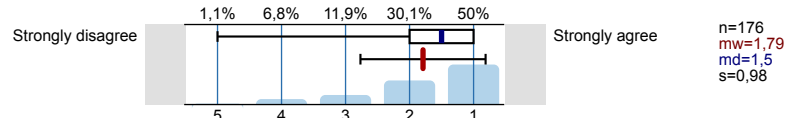

Answers given by the instructor were helpful in clarifying uncertainties.

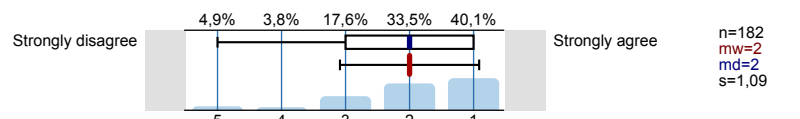

Recommended reading materials (e.g., lecture notes, literature) were useful in facilitating understanding of course content.

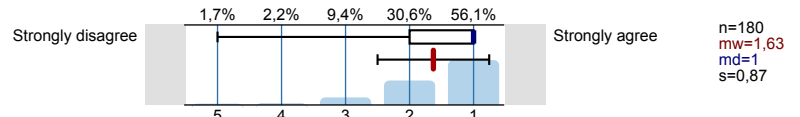

Recommended reading materials (e.g., lecture notes, literature) were readily available.

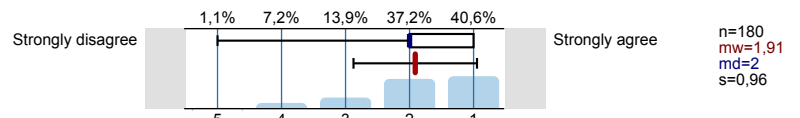

Instructor's manner of speaking was clear and audible.

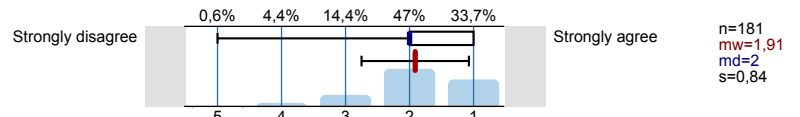

Instructor spoke at an appropriate speed.

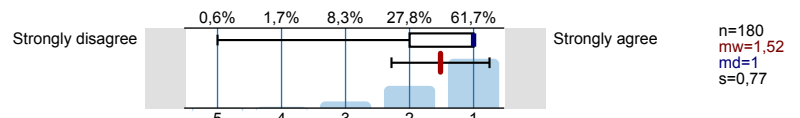

Instructor's lecturing style sustained my attention.

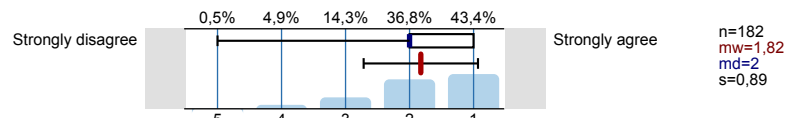

Instructor was open to subject-oriented issues.

Instructor was open and friendly towards students.

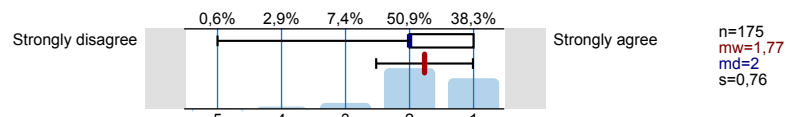

Instructor was able to arouse my interest in the subject.

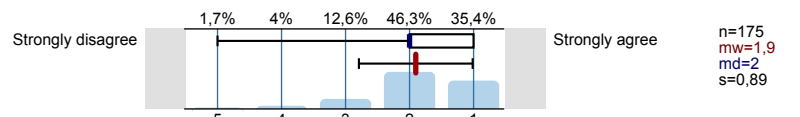

Evaluation of general satisfaction with the course

Overall, I am satisfied with the course.

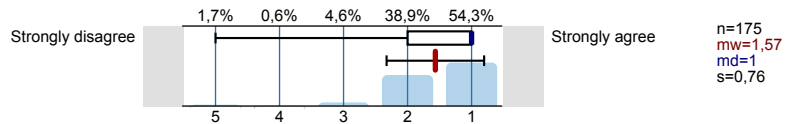

Evaluation of teaching and learning environment

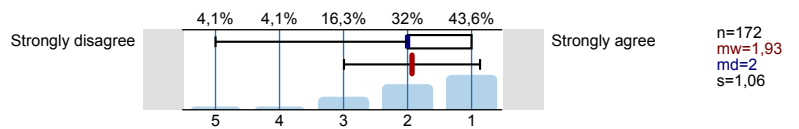

Prior knowledge and experience helped me master the course content.

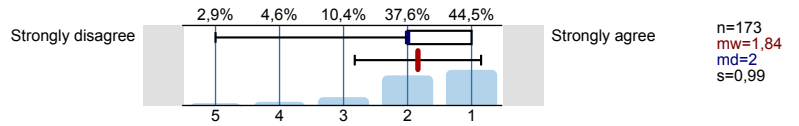

Technical equipment (overhead projector, beamer, blackboard, microphone, etc.) was always ready for use and functioned properly).

Size of the room was adequate for the course.

The room setup (seating, tables, lighting, ventilation, etc.) was satisfactory.

Auto-Gruppe

What did you especially like about the course?

- well structured

good examples

The course provided a solid foundation for understanding financial markets and investment strategies.

The professor makes the subject interesting and easy to follow.

- well structured slides

The course is clear

pleasant voice

The professor explained all the topics very well

Additional reading in the book was very helpful to improve understanding.

Prof. Theissen had a very clear way of explaining course subjects.

I managed it to listen the whole time without being bored.

WIFI in SS 100 is shit!

- Prof. Theissen explained the content very well
- excellent instructor
- very good slides

The speech and the content of lectures was good, the slides were well made, info explained

Best lecturer ever! Thank you for explaining everything so clearly!

I've finished the finance 301-401 series. Just came back to hear your lectures again, because they provide insights in such a crystal clear way! Many many thanks?

- well explanations
- not too fast
- not too much information
- easy to follow

Good explanations

The excellent way Dr Erik Theissen was able to teach the lecture and able to grasp everyone's attention!

Prof. Theissen always explained it in a very understandable way, made the central points very clear and repeated the most important phrases

Mr. Theissen has a very ^{good} way of giving lectures. ~~He is~~

- examples

Additional explanations on the board were very helpful

- very good English!

What should/could be improved?

<p>a bigger room would be great</p>	<p>- German-English-dictionary with finance vocabulary and/or definitions</p>
-------------------------------------	-------------------------------------------------------------------------------

<p>- it would be easier to follow, if there were more examples in the lecture - some slide are little bit too short</p>	<p>include more examples and calculations that are not already explained in the literature the course refers to (BMA)</p>
-----------------------------------------------------------------------------------------------------------------------------	-------------------------------------------------------------------------------------------------------------------------------

<p>Better connection between content of lecture & exercise</p>	<p>Room too small, not everyone gets a place</p>
--------------------------------------------------------------------	--------------------------------------------------

<p>- too many known subjects (from Fi.Ma)</p>	<p>More literature recommendations. Everything else was perfect!</p>
-----------------------------------------------	--------------------------------------------------------------------------

<p>too small Room</p>	<p>That initiatives couldn't introduce themselves</p>
-----------------------	-------------------------------------------------------

Wi Fi in ~~the~~ S108 is really bad

- could you continue ^{with} the second part as well?

- either FiMa or Fin 301 should stop ~~the~~ dealing with the same topics
- exercise sheets were more difficult ~~and~~ than the lecture content, because lecture stuff didn't cover all aspects of the exercise questions (e.g. capital expenditures, valuing a firm, etc.), so one could not answer them well

The exercises don't coincide with lecture material! It's a big minus to the course, as one has to look for the information on their own and spend a lot of time in uncertainty in stren!

~~Exercise 5~~

Exercise 5: Lecture no help to solve the tasks

- connection between FiMa should be made clearer (formels etc.)

In Exercise 6 especially it was hard to solve the tasks just with knowledge provided in the lecture

Sometimes it was difficult to solve the exercises with the content of the lecture

Sometimes it was very difficult to master the exercises only with the lecture content.

The size of the class should be reduced. As there're so many students, professor had a hard time controlling them

- exercises and lecture could have been more related
- e.g. more calculation examples during the lecture
