5. Open Questions

5.1) What did you particularly like about this course?

Professor Theissen's evident dedication and outstanding teaching style.

Prof. Dr. Theissen is a very great professor. We all respect him a lot.

The structure is very clear.
The readings are interesting.
Prof Theissen does an awesome job

Professor explains really well:

clear structure and illustration

The lecturer and his manner of presentation & explaining - very nice and clear, easy to understand.

The course was clearly and accurately explained.

The ~~course~~ course covers a broad range of contents and they're ~~to~~ very well and explained and illustrated by the instructor ↴

The content and structure of course is clear and attract me

Very well structured, and ~~useful~~ examples do course content

No tutorials but the Professor is doing exercises with us - helps a lot
good material, old exams were provided

Excellent knowledge of instructor and very clear explanations

• Best teacher in Finance area

Intensive courses & early final exam.

Great presentation, step-by-step introduction of content.

The professor speaks ~~well~~ clearly
and explains

good structure of each chapter

The ~~total~~ knowledge of this course is very useful

I like Prof. Theissen very much.

I'm interested in all investments-related topics, so the content was interesting in its matter

well-structured and useful for getting to know about fixed-income market

Good teaching, proper explanations, good slides (available from the beginning),
good exam preparations

Very clear illustration of the course subject.
great slides, great lecture. Perfect.
best professor ever

The professor presents comprehensive basic knowledge in debt capital market.
It's a very good course to open the door to DCM.

The compact schedule and the early exam date.

- compressed schedule

The structure

100% Finals Exam

course material and lectures are very clear.

- going into technical details, the "math" portion of it

- Early exam
- Excel exercises

- Early exam date,
- Instructor made it interesting

Perfect as it is.

5.2) What should be improved?

- * Organize the exam after Easter break to allow study time
- * Schedule enough time for a Q&A session in addition to the previous exam review

There are in very rare cases minor
~~very~~ typos on the slides, but nothing big or
serious :)

Maybe longer course period ~~of~~

Give us more time for revising.

Too short time to prepare for the exam

Less intensive classes schedule (now very little time to cover
and read all materials offered as a ~~new~~ Required reading)

It would be better if the slides are more detailed.
I can not get every thing during the lecture.

Please provide the answer of PS and exams, that can help us study better.

no course material in last session

no new content on last session before exam

Finish content earlier and not in the week of the exam.

- Could have included a brief opener with current news e.g. (Yield curve shift in US)

More abstract solutions to exercise. Not plugged in figures

More exercises would be better.

Somebody always chat on the class, the professor should ask ~~them~~^{him} to shut up!

Some students always talk with others in the class for hours and laugh very loud. I hope professor could stop them.

More examples of real life bonds

Nothing. just perfect

new figures / examples

maybe some more real life examples

Maybe the instructor could upload the solutions to the previous exams.

Two lectures with only a short break inbetween

Uploading of answers to problem sets and past year papers.

- I see the intention of not providing the answers to the exercises, however a complete solution would be very helpful, even ~~if~~ after attending the exercise session

~~Example of a "rat"~~

Last lecture should not be only three days before the exam!
