What did you especially like about the course?

<p>Adequate empirical studies to support the content of the course.</p> <p>Up-to-date Topic related to ^{relevant} practice & Industry.</p>	<p>Topics are interesting and equipped with theoretical procedures .</p>
<p>The professor is friendly and helpful Many questions are clearly explained</p>	<p>The lecturer introduces and explains the material in a very comprehensible manner.</p>
<p>Instructor's clear manner of speaking</p>	<p>Theissen can use simple words to explain very complicated stuff, which is really impressive impressive</p> <p>His lectures are always very well-organized.</p>
<p>Great course, very relevant for a career in markets.?"</p> <p>Excellent presentation of academic literature, recent studies and current research focus - not only standard textbook content."</p> <p>Excellent instructor</p>	<p>Theissen's good way of presenting, of clearly explaining complicated topics. His good manner of having a good discussion in class even though not all students engage.</p>
<p>highly connected to the real world many ways to explain the same situation have a chance to look into the practical investment process and important things to notice.</p>	<p>Introduce the practical Application of the Deutsche Börse and</p>

<p>interactive motivated lecturer</p>	<p>Professor's clear speaking.</p>
<p>Learning about the markets and the trading terms from the lens of a European nation.</p>	<p>Professor was outstanding! Great course.</p>
<p>Great course with interesting subject!</p>	<p>Very interesting topics, well explained Professor seemed to be interested in students' progress. Good answers to questions</p>
<p>Excellent instructor</p>	<p>early exam</p>
<ul style="list-style-type: none"> - Good structure (chapter length appropriate) - early exam 	<p>Great structure and very good answers to questions from students.</p>
<ul style="list-style-type: none"> - Structure of the course was not that well explained: why do we cover what at which part of the course? - Everything else: very good! 	<p>I think it was well structured and the choice of topics made sense to me</p>

Real World Relevance

- Professor is keen to discuss issues with students

What should/could be improved?

Slides are expected to be more structured.
Still hard to understand when reading through slides

use a different laser pointer. Can't see it from behind

- Solution to problem set should be more clearly illustrated (may be on professor's slides - which can be kept private to students, but can be shown in class)
- Empirical findings should be more clearly illustrated

the answer to the questions should be given in a written material.
in case some one miss lectures.

- slower/more easy to follow explanation of the end-of-chapter-questions

The solutions to problem sets could've been uploaded because when you listen and have to write things down it is pretty hard to capture all content. I feel like I would be more able to focus on listening if I didn't have to try to at the same time write everything.

<p>Solutions of problem exercise questions Too much literature and difficult to get the point.</p>	<p>NIL Thank you for teaching us!</p>
<p>At least when it comes to definitions it would be nice when the slides would be complete, as sometimes it might not be possible to attend the course. Maybe little less "what is this" questions in exam</p>	<p>Guest lecture could be very interesting (practitioner) Room in the morning could be larger Timing: B2-B6 (rather B2-B3/B4)</p>
<p>classes twice in one day with a long break in between can be hectic if one doesn't live close to the uni</p>	<p>- some abbreviations in the lecture notes are not explained.</p>
<p>add include sections about trading in bond and derivatives markets</p>	<p>- Topics regarding Primary Markets were missing a little bit</p>
<p>More self explanatory slides</p>	<p>At least short-form solutions to the exercise questions should be uploaded as it is very hard to think about the solution while trying to write everything down</p>
<p>- exam is scheduled at a very late time - some slides are not clear even after having discussed them in class - Structure of lecture was not really intuitive for me</p>
